

## Amendments

### *In the Claims:*

Please amend claims 34-40 as follows, beginning on page 3 of this response.

34. (Amended) The isolated oleanane triterpenoid oligoglycoside compound according to claim 33± wherein R<sub>1</sub> has a α or β configuration.

35. (Amended) The isolated oleanane triterpenoid oligoglycoside compound according to claim 33± wherein the polysaccharide carbohydrate portion has a monosaccharide having a D or L rotation and the intersugar linkages have a α or β configuration.

36. (Amended) The isolated oleanane triterpenoid oligoglycoside compound according to claim 33± wherein the carbohydrate portion linked to the aglycone portion at position 3 has a β configuration.

37. (Amended) The isolated oleanane triterpenoid oligoglycoside compound according to claim 33± wherein R<sub>1</sub> is -OH.

38. (Amended) The isolated oleanane triterpenoid oligoglycoside compound according to claim 33± wherein the C<sub>13</sub> - C<sub>28</sub> oxydo ring has a β configuration.

39. (Amended) The isolated oleanane triterpenoid oligoglycoside compound according to claim 33± wherein the compound inhibits growth of fungi selected from *candida* sp. and *Cryptococcus neoformans*.

40. (Amended) The isolated oleanane triterpenoid oligoglycoside compound according to claim 33 wherein the compound inhibits growth of *Microsporin gypseum*, *Trichophyton mentagrophytes*, *T. tonsurans* and *T. violaceum*.
